COURSE AIMS & OBJECTIVES: This course shall enable candidates to recognize and identify both their strengths and weaknesses measured against the learning objectives of each training activities and simulation exercises. This, in effect, shall enhance and improve their knowledge and skills in managing bridge team and operation. In particular, at the end of the course trainees should be able to:

- apply essential BRM techniques such as:
 - Communication and Briefings
 - Challenge and Response to break chain of errors
 - Use of authority and assertiveness in a team
- use bridge equipment and human resources effectively
- apply and comply with company-specific bridge procedures during simulation exercises
- understand the role of the pilot on the bridge
- apply collision avoidance
- safely navigate, embark/disembark pilot in pilotage waters
- anchor safely in confined/congested waters
- execute safely docking/undocking maneuvers
- apply emergency procedures during simulation exercises e.g. man-overboard, steering/engine failures, etc.

COVERAGE / PROGRAM FOCUS: *Preliminary lectures* briefly tackle essentials of the following BRM modules: *Attitude, Cultural Awareness, Communication & Briefings, Challenge & Response, and Workload*; followed by review of *company-specific* Bridge Procedures and lecture-discussion on Shiphandling Principles.

Simulation activities shall mainly deal with exercises/scenarios in relation to execution and achievement of above-mentioned objectives.

METHOD: Combination of lecture-presentation, discussions and simulation activities/exercises using Full Mission Bridge Simulator.
