**NEW COURSES OFFERED AT NTC-M**

Based on the requests from our valuable clients and participants, we have developed new technical courses for Marine Applications:

- ◆ **Pneumatics**
- ◆ **Electro-Pneumatics**
- ◆ **Programmable Logic Control**
- ◆ **Hydraulics**

All courses has a Target Group for Marine Engine / Electrical Officers on Offshore Units and Onboard Merchant Vessels. Duration of each course are for 5days with hands-on application.

At present, the laboratory equipments of 'Hydraulics for Marine Application' are under installation and will be available by July of this year.

For further information, you may check the full course descriptions at our website [www.ntcm.com.ph](http://www.ntcm.com.ph) (Course No. 70-73) or contact Mr. Finn Guriby (Head of Electrical Section) at (02) 812-0742 local 139.

Quality Policy:

We Stand for EXCELLENCE

## Maritime Assessment Center

The Maritime Assessment Center has accommodated 435 clients as of 2007. 17% of which are Management Officers and 83% are in operational level officers. Since October 2006 upon its establishment, it has grown its number of clients that has been thru the assessment process. Scheduled every Tuesdays and Wednesdays, it has been efficiently serving its client and their respective companies through identifying their officers strengths, weaknesses and recommendations for their improvement.

## Maritime Crew Resource Management (MCRM) formerly BRM

The SAS-Flight Academy, who developed the Bridge Resource Management (BRM), has been sold and is now part of Oxford Aviation Academy, one of the world's leading aviation training groups. As requested by Oxford, the BRM course title was renamed to **Maritime Crew Resource Management (MCRM)** as the course is applicable to all Deck and Engine Officers and not just limited to Bridge Officers.

The course remains to have the same modules (a total of 17) and are consist of Human; Communications; The Team; Management & Leadership and Crisis.
