

NORWEGIAN TRAINING CENTER-MANILA

of

NORWEGIAN MARITIME FOUNDATION OF THE PHILIPPINES, INC.

ENVIRONMENTAL AWARENESS TRAINING

DURATION:
3 Days
(0830H – 1600H)

COURSE CONTRIBUTION:
USD 350.00

Inclusive of course materials/handout

This training program is the result of the collaborative effort of BWGas, Klavness, Grieg, Wilhelmsen, Höegh and NTC-M/NMFPI. A cooperation called NSA Working Group for Environmentally Friendly Shipping.

The course is intended for Deck & Engine Officers as well as Superintendents. It promotes system understanding and encourages purposeful thinking in looking across regular boundaries of responsibility and interests in recognizing energy & environmental potentials in order to further improve environmental performance of shipping operations.

The emphasis of training deals with the key environmental issues and impacts associated with shipping; mitigation measures; identifying & prioritizing cost effective energy & environmental solutions; imminent development & regulatory agenda; and program for maintaining & continually improving the environmental performance.

COURSE AIMS & OBJECTIVES: This course aims to develop a sound understanding & attitude towards the importance of reducing the environmental impacts & threats from shipping industries and improving the environmental performance of shipping operations. All of which are headed toward awareness & involvement on increasing operating efficiency and creating potential environmental and financial benefits as well as a competitive edge,

COVERAGE / PROGRAM FOCUS: The course shall deal with the following subject/training areas:

- Overview of impact and threats of shipping operation to environment
- Approaches and strategies to manage & improve environmental performance
- Company Expectation: Environmental Policy & Commitment
- Customer expectations and public reputation
- Ballast water management
- Waste stream management
- Environmental Compliance
- Energy management / Energy Efficiency
- Effective use of chemicals
- Resource conservation
- Green recycling of old tonnage ("cradle to grave" approach)
- Development Agenda: Technology and Innovation
- Implementation - all participants' ownership to implementation plan

METHOD: Combination of lecture-presentation and interactive class discussion supported by group work activities and a workshop on drawing up an implementation/action plan. Presentation of the "Implementation Plan" shall serve as the course final assessment.

ENTRY REQUIREMENT / TARGET GROUP: Shipboard Management Team (SMT) and Vessel Managers (Superintendents)

COURSE CERTIFICATE: A Certificate of Completion is given to each participant who satisfactorily fulfills the Course.
