

SAFETY AND IMPROVEMENT REPORTING SYSTEM

This course is designed for Senior Deck & Engine Officers, Quality Assurance Managers and Ship Managers. BASSnet™ SAFIR is tool for recording, storing, analyzing, and experience transfer of all details in connection with maritime events such as accidents, near-miss, non-conformities, inspections/audits, and remarks, thus serves as a management and decision-support tool to improve safety and quality of operation.

COURSE AIMS: On successful completion of the course, participants should be able to:

- navigate within SAFIR system environment and its modules in order to log events properly
- understand the SAFIR code structure to ensure coherent classification of events
- use SAFIR to gain knowledge and experience through transfer of knowledge from the entire fleet
- transfer knowledge in their respective operational environment onboard and work independently in reporting safety information using SAFIR as a management tool

COVERAGE / PROGRAM FOCUS:

- **Benefits and Aims of SAFIR**
- **Database creation:** SAFIR manages vital information related to non-conformities, near-accidents and accidents
- **Enhancing safety and quality:** SAFIR analyses data to define and track actions that can enhance safety and quality; it also produces and analyses reports based on statistics via an internet browser
- **Reducing safety and quality-related costs:** SAFIR has a statistical module to document and trace safety and quality non-conformities, near-accidents/accidents and associated costs
- **Improves and supports decision-making:** SAFIR's reporting and insurance modules enable better risk management and loss prevention; the insurance module tracks policies and claims

METHOD: Combination of lecture-demo, guided hands-on practice, and structured exercises that are focused on system's practical application onboard. A computer unit is made available for each participant.

ENTRY REQUIREMENT TARGET GROUP: Preferably Senior Deck and Engine Officers, QA Managers and Ship Managers. It is expected that those intending to take the course possesses background in basic computer operation.

COURSE CERTIFICATE: A Certificate of Completion is given to each participant who satisfactorily fulfills the Course.
